TAK013 | OCTOBER 2024 |

The fantastic beauty of Makido Cave

Makido Cave, a 450-meter-long limestone cave in Okayama Prefecture, is characterized by its beautiful natural stalactites. The temperature inside the cave is always kept at around 15 degrees, making it comfortable to stay there regardless of the season. The cave is fantastically lit up, and you can enjoy the various stalactites and scenery. At the very back, there is a spring called "Lovers' Fountain," and the heart-shaped rock has become a hot topic on social media, making it a popular photo spot

About the services of "Takamatsu Shoun"

- Setouchi/Shikoku excursion course creation/inquiries
